

UNLOCKING A TIER-1 GRAPHITE PROVINCE

SCALE | PURITY | INFRASTRUCTURE

THE INVESTMENT CASE: A STRATEGIC GRAPHITE ASSET

WORLD-CLASS SCALE

Tanga Graphite Project hosts a major JORC Mineral Resource.

183 Mt @ 4.86% TGC with **81%** in the Indicated category for high geological confidence.

PREMIUM PRODUCT

>97% Purity achieved via simple flotation (vs. 94% standard).

>60% Large & Jumbo flake distribution commanding premium pricing.

INFRASTRUCTURE-LED

The 'Factory Beside a Highway' advantage.

<80km to Tanga Port, direct paved road access, and plugged into hydro-grid power.

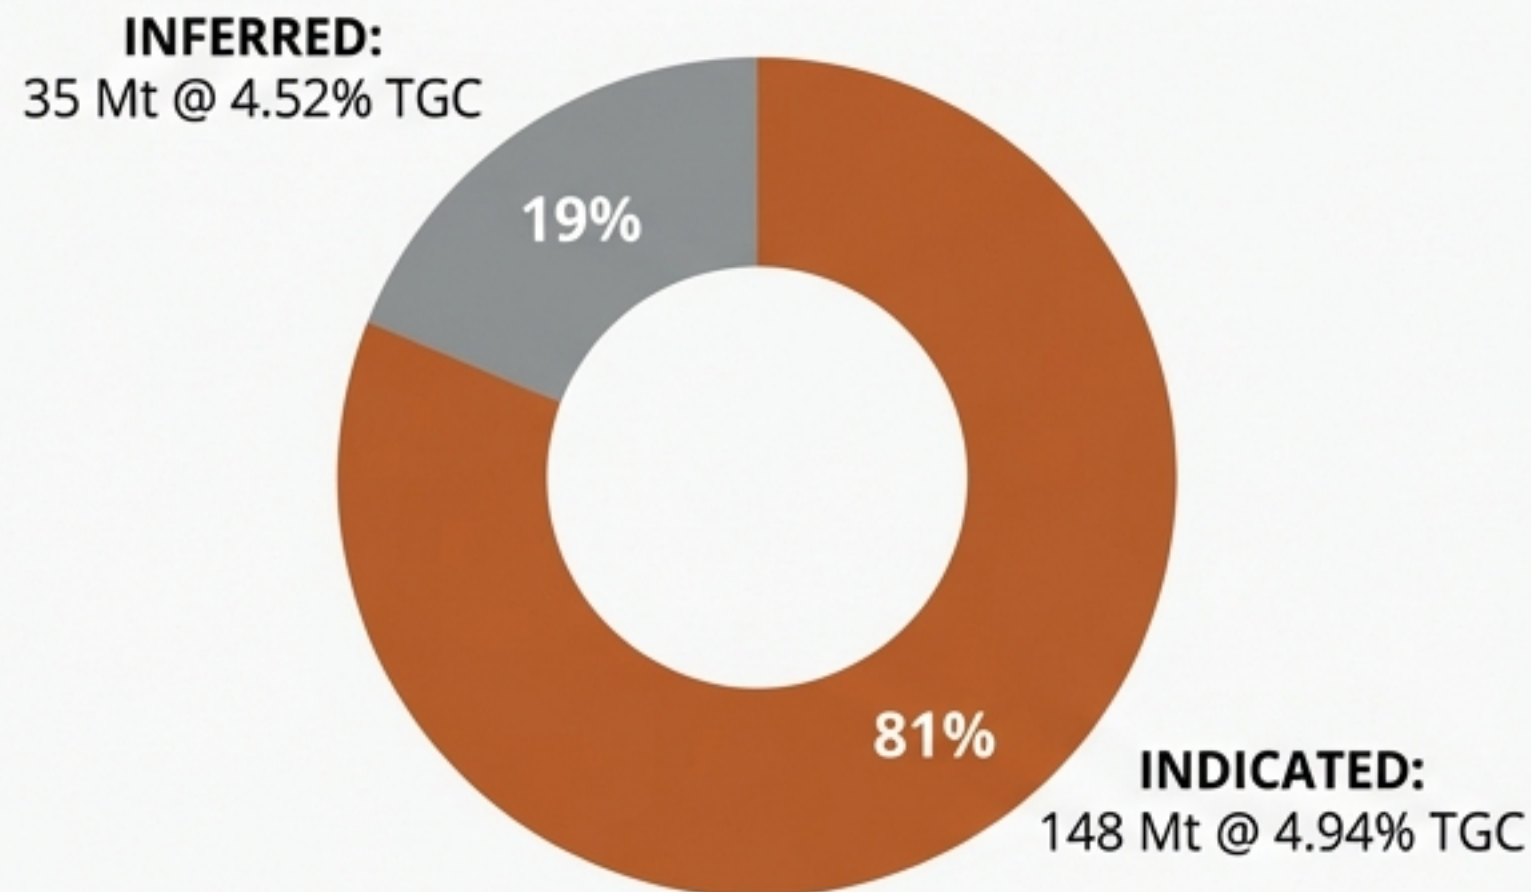

DIVERSIFIED UPSIDE

Backed by the Sakariya Group conglomerate.

Bonus exposure to high-potential Gold portfolio in Lake Victoria Goldfield.

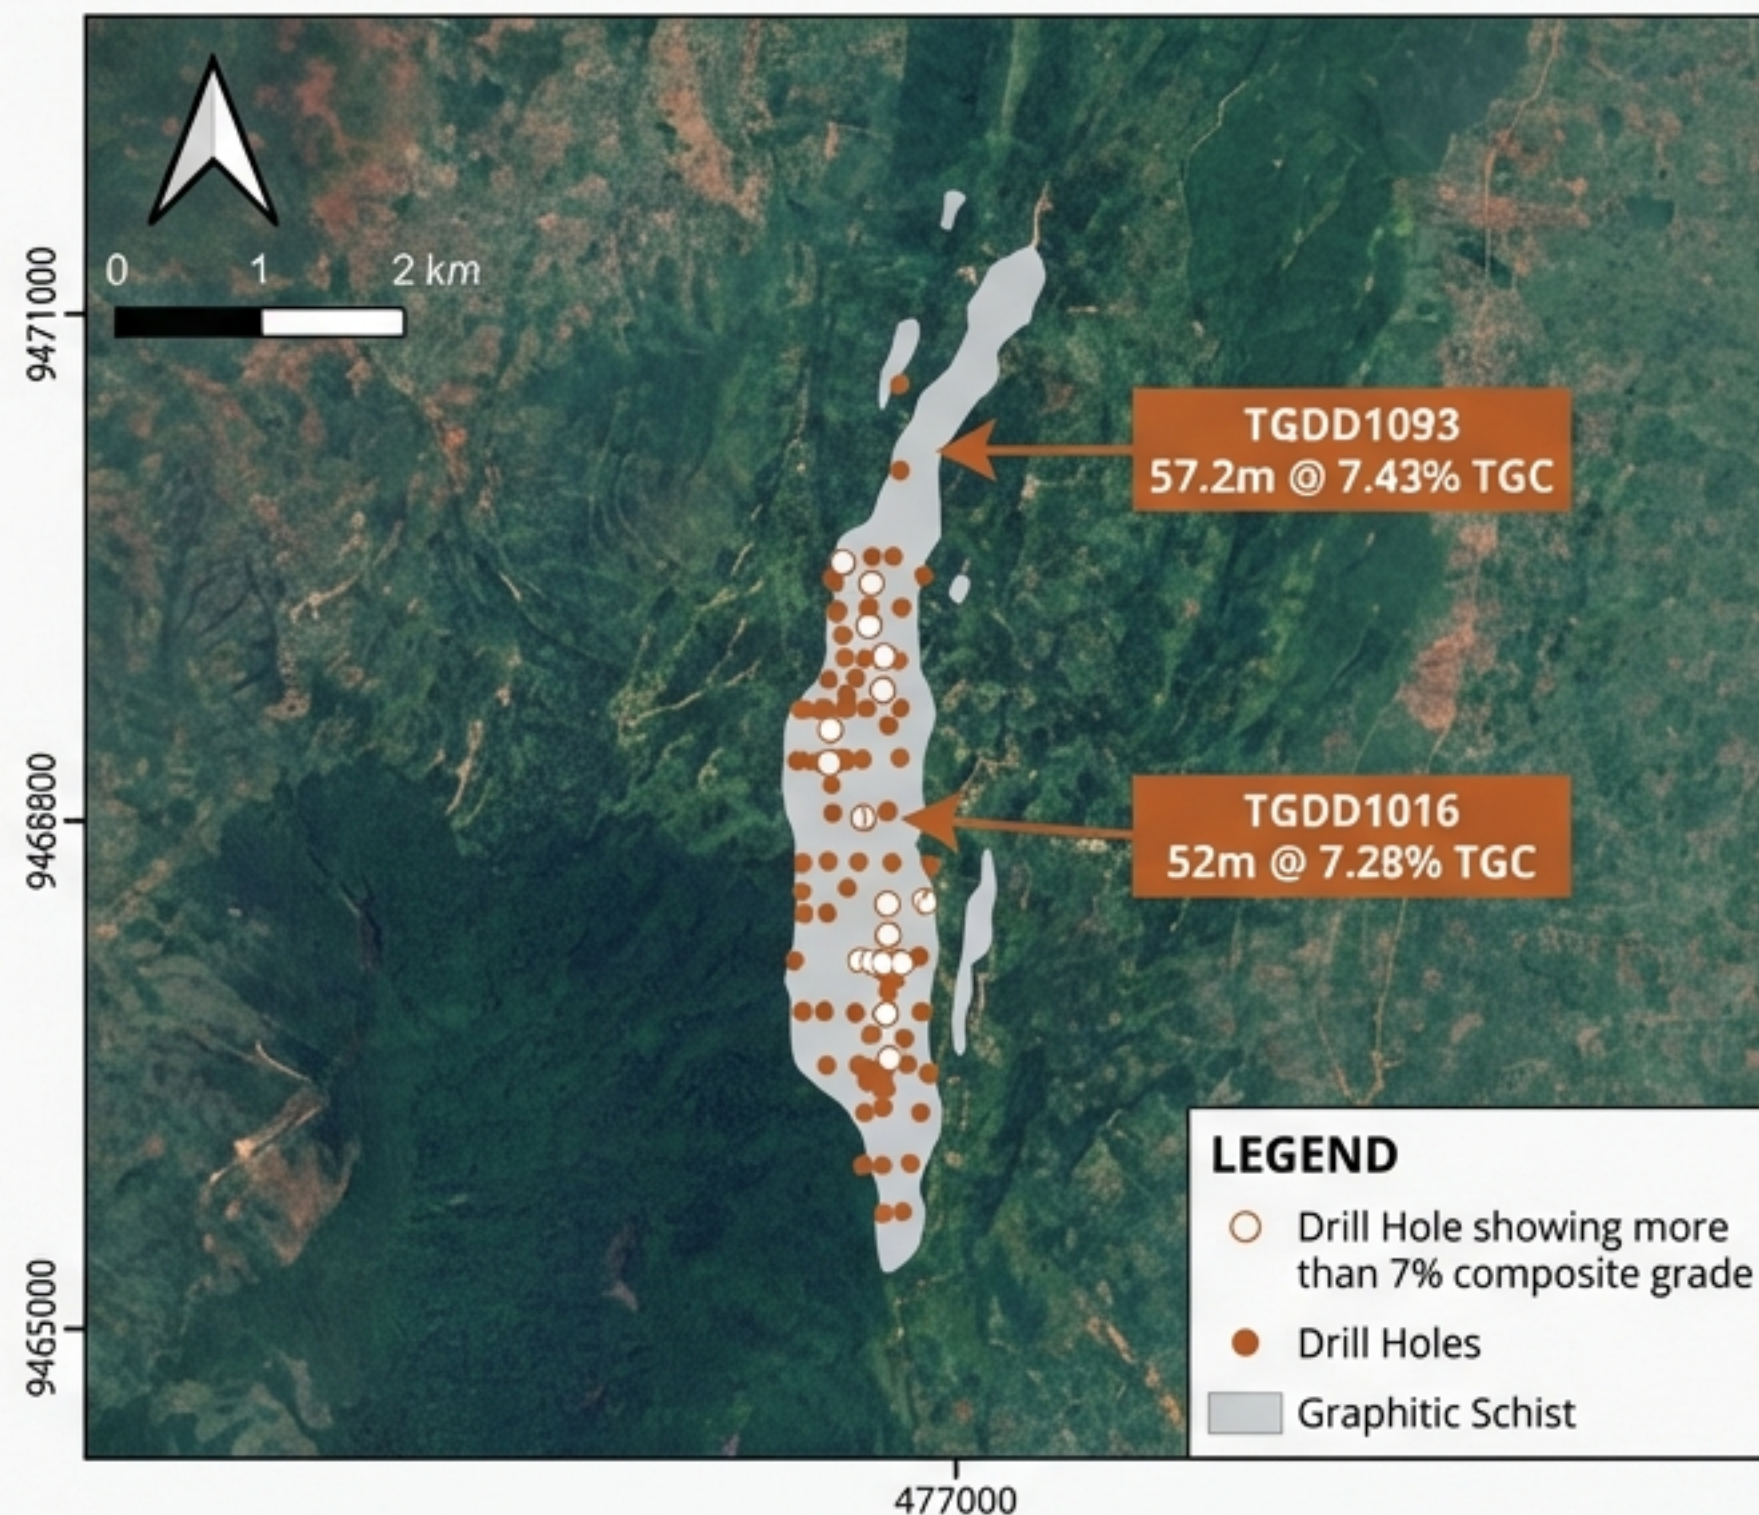

A TIER-1 FOUNDATION: 183 MT JORC MINERAL RESOURCE

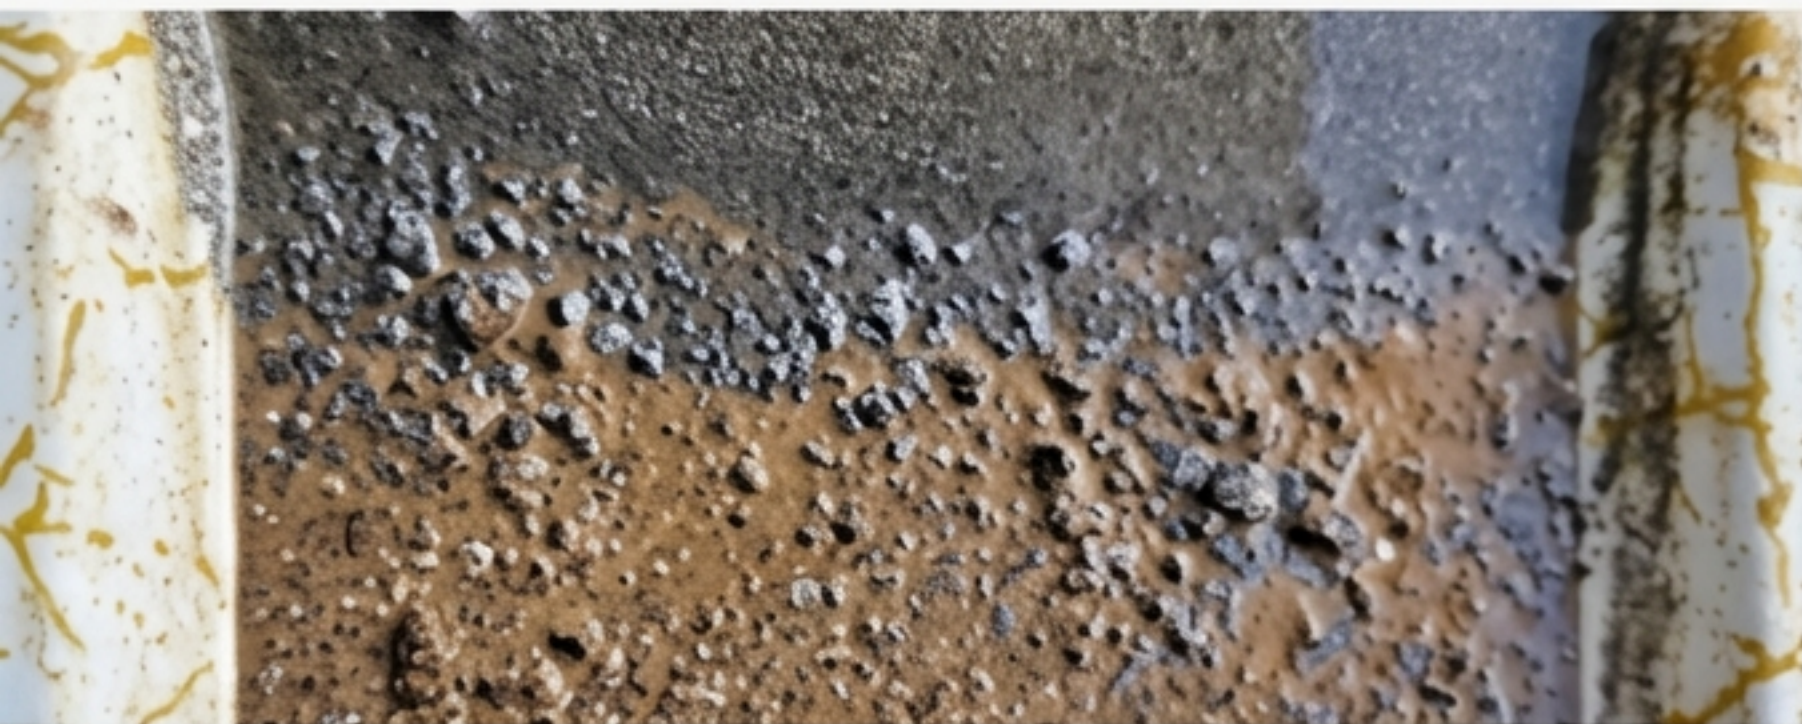

Barlow Condensed:

183 Mt @ 4.86% TGC (3% cut-off)

Drilling Density: Reduced to 50m x 50m in key areas to confirm continuity. 100 Diamond Drillholes for 9,421 meters total.

PREMIUM METALLURGY: BATTERY-GRADE PURITY VIA SIMPLE FLOTATION

ULTRA-HIGH PURITY

>97% TC

Achieved across Oxide, Fresh, and Kaolinized ore types. Independent Metallurgical Operations (IMO) confirms premium status exceeding 94% market standard.

LARGE FLAKE DISTRIBUTION

>60%

Concentrate mass in Large & Jumbo (use (+150 µm) categories, commanding higher basket prices.

HIGH RECOVERY

>89%

Achieved in fresh composites using standard flotation flowsheet.

INFRASTRUCTURE-LED ECONOMICS: A 'FACTORY BESIDE A HIGHWAY'

LOGISTICS ADVANTAGE

Port Access: <80 km to modernized Tanga Port. Massive haulage cost savings vs inland projects.

Road Connectivity: Direct access to paved Tanga-Horohoro trunk road.

Power: Grid connection nearby. Access to Hale (21MW) and New Pangani (68MW) Hydro plants.

"Competing projects spend days getting to export; we spend minutes."

OPERATIONAL EXECUTION & CORPORATE STRENGTH

THE SAKARIYA GROUP

Financial Stability & Diversification

- Multinational conglomerate headquartered in Ahmedabad.
- Real Estate: 14M sq ft developed, 9M sq ft under development.
- Air Products: Industrial gas operations.
- Self-funded exploration to date.

TECHNICAL EXCELLENCE

156 Years Cumulative Exploration Experience

30+

Geoscientists

20+

Tanzanian
Geologists

7

PhDs

Key Leader Profile

Supriya Das, Technical Director - Expert in JORC/NI 43-101 reporting with success in Africa & Asia.

DIVERSIFIED UPSIDE: THE GOLD PORTFOLIO

Jomu Gold Project (Nzega Cluster)

Located in a world-class gold province hosting major deposits like Geita and Bulyanhulu.

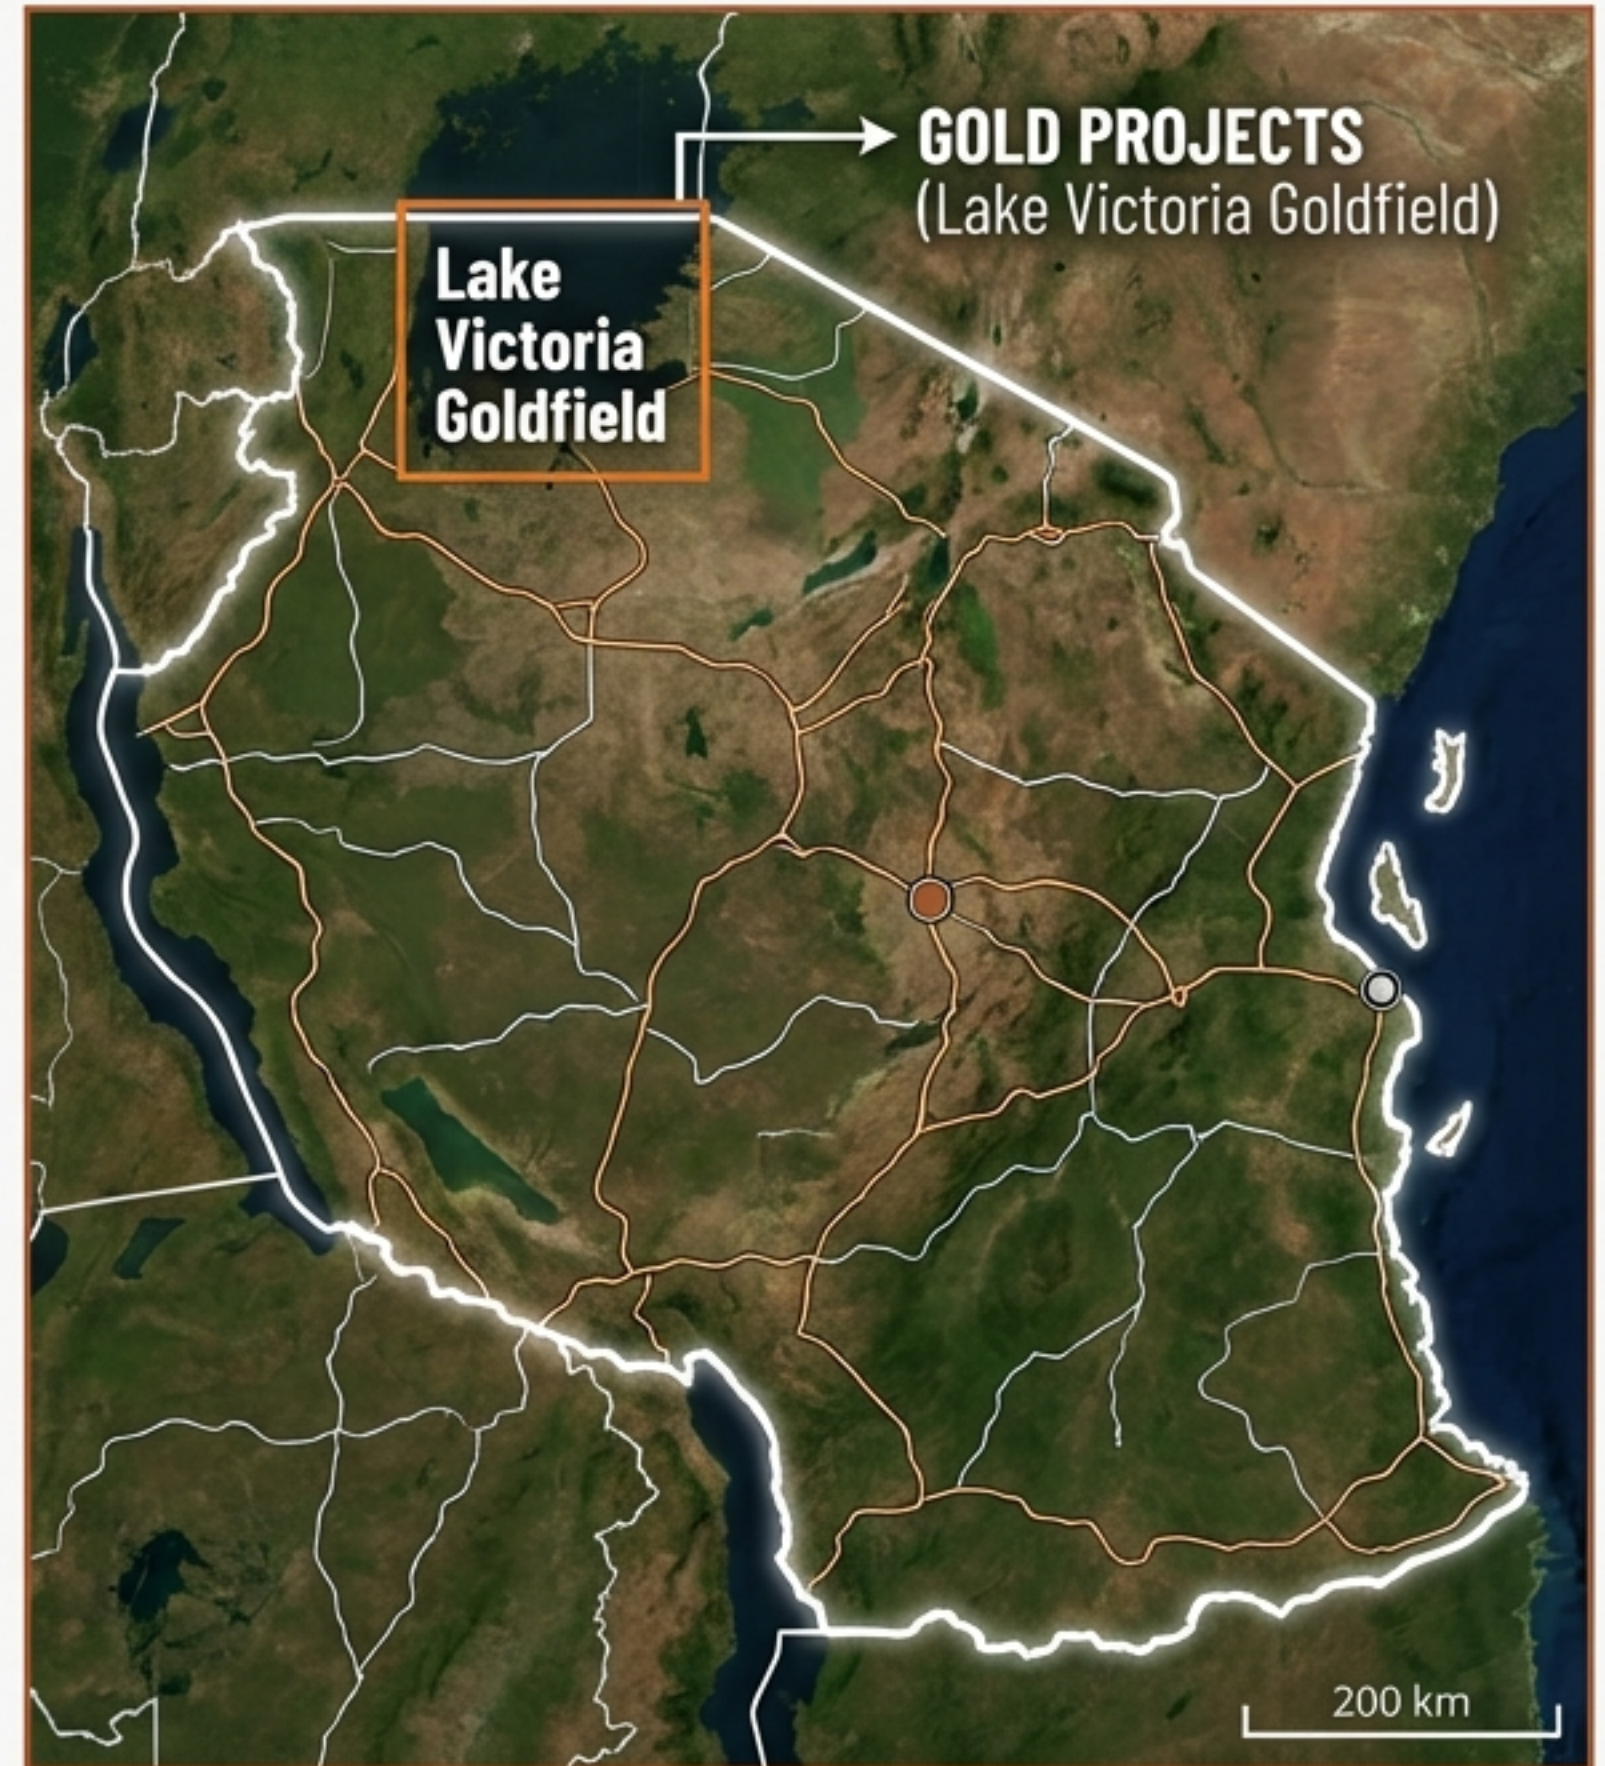

KEY STATS:

- **21** Prospecting Licenses (460 sq km)
- **20** Significant Intersections in just 6 boreholes.

DRILL HIGHLIGHTS:

- **6.15m @ 3.05ppm Au**
- **7.11m @ 1.54ppm Au**
- **5.00m @ 1.44ppm Au**

ROADMAP TO PRODUCTION & VALUE CREATION

A clear path from resource definition to commercial operations.

SAKARIYA MINES & MINERALS

RESHAPING RESOURCES

**With 183 Mt of resource at 4.86% TGC,
Tanga is poised to be a premier graphite
investment opportunity.**
